

The Principles

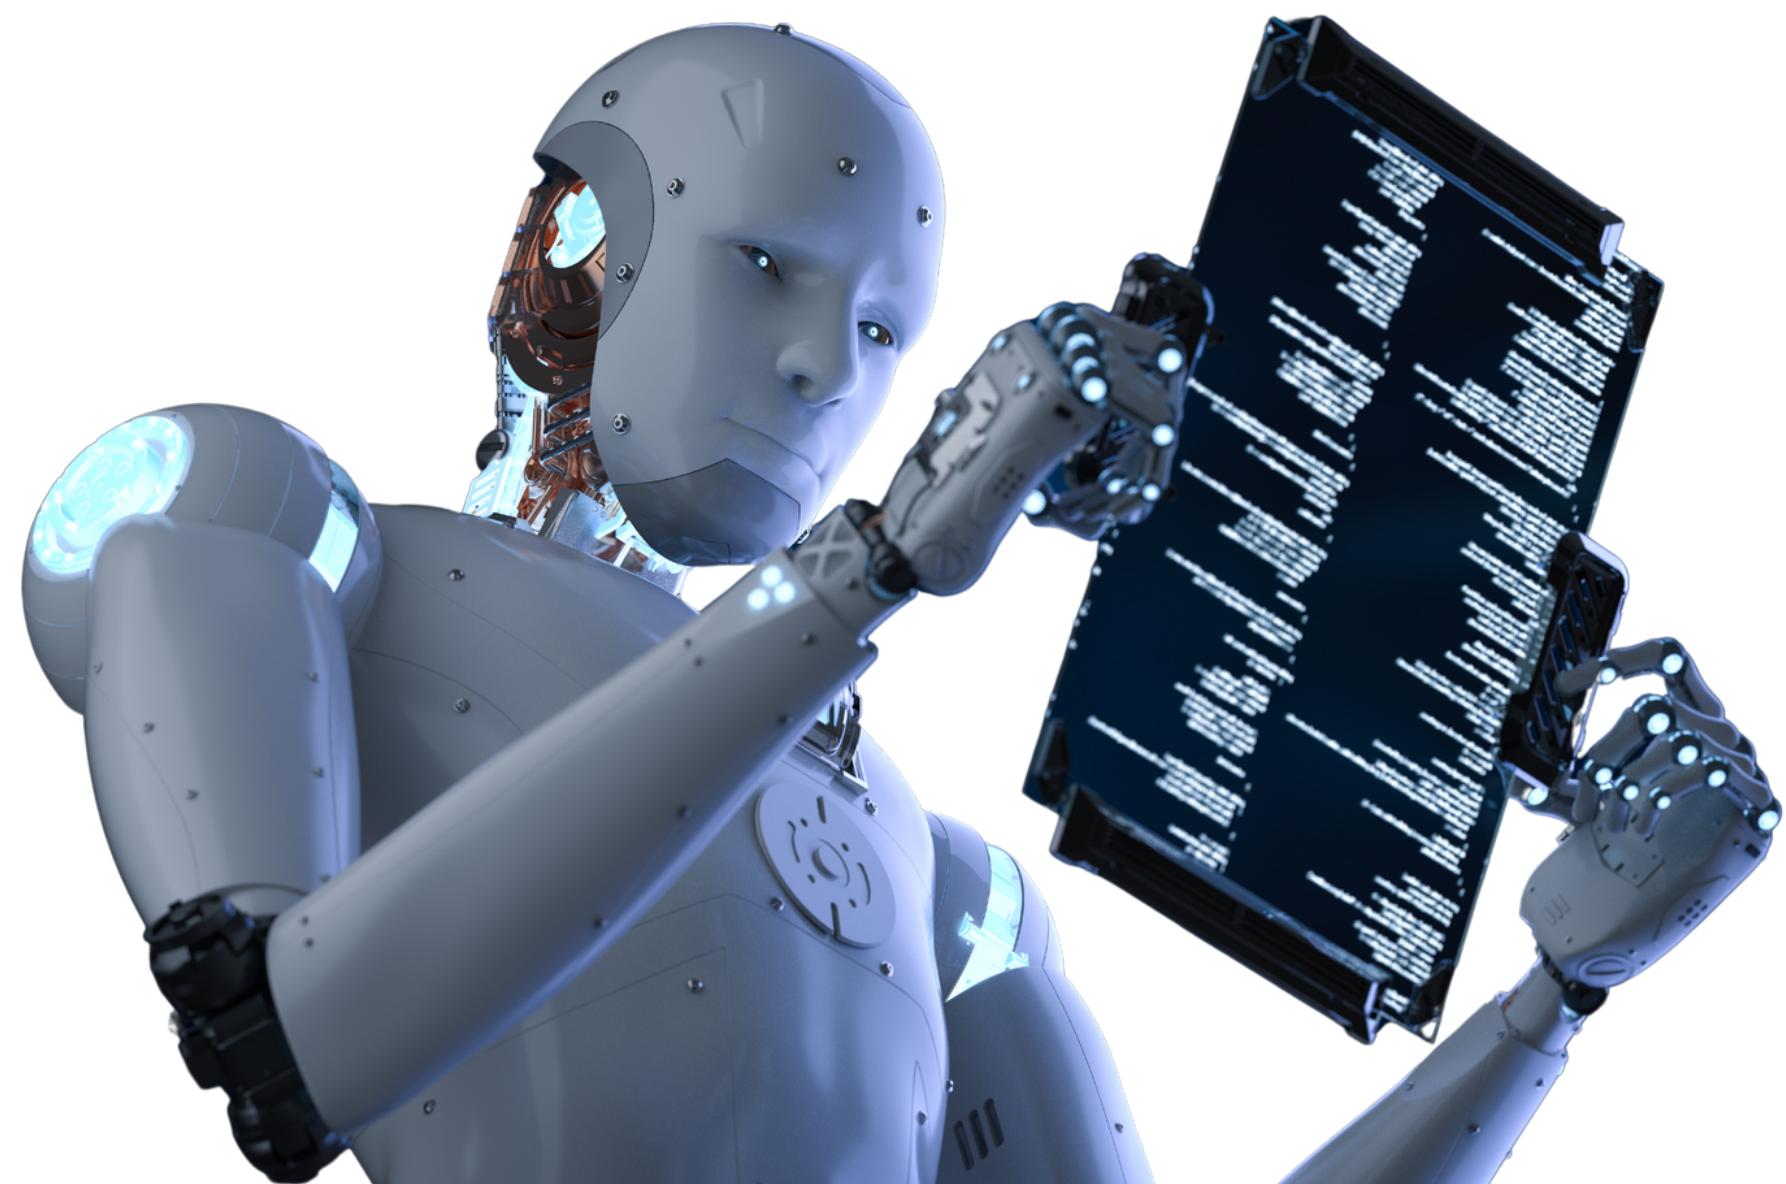

- 1. A robot may not injure a human being, or allow a human being to come to harm (no harm)**
- 2. A robot must obey the orders given to it by human beings. This must not conflict with Rule 1 (obedience)**
- 3. A robot must protect its own existence so long as such protection does not conflict with Rule 1 or 2 (avoid danger)**

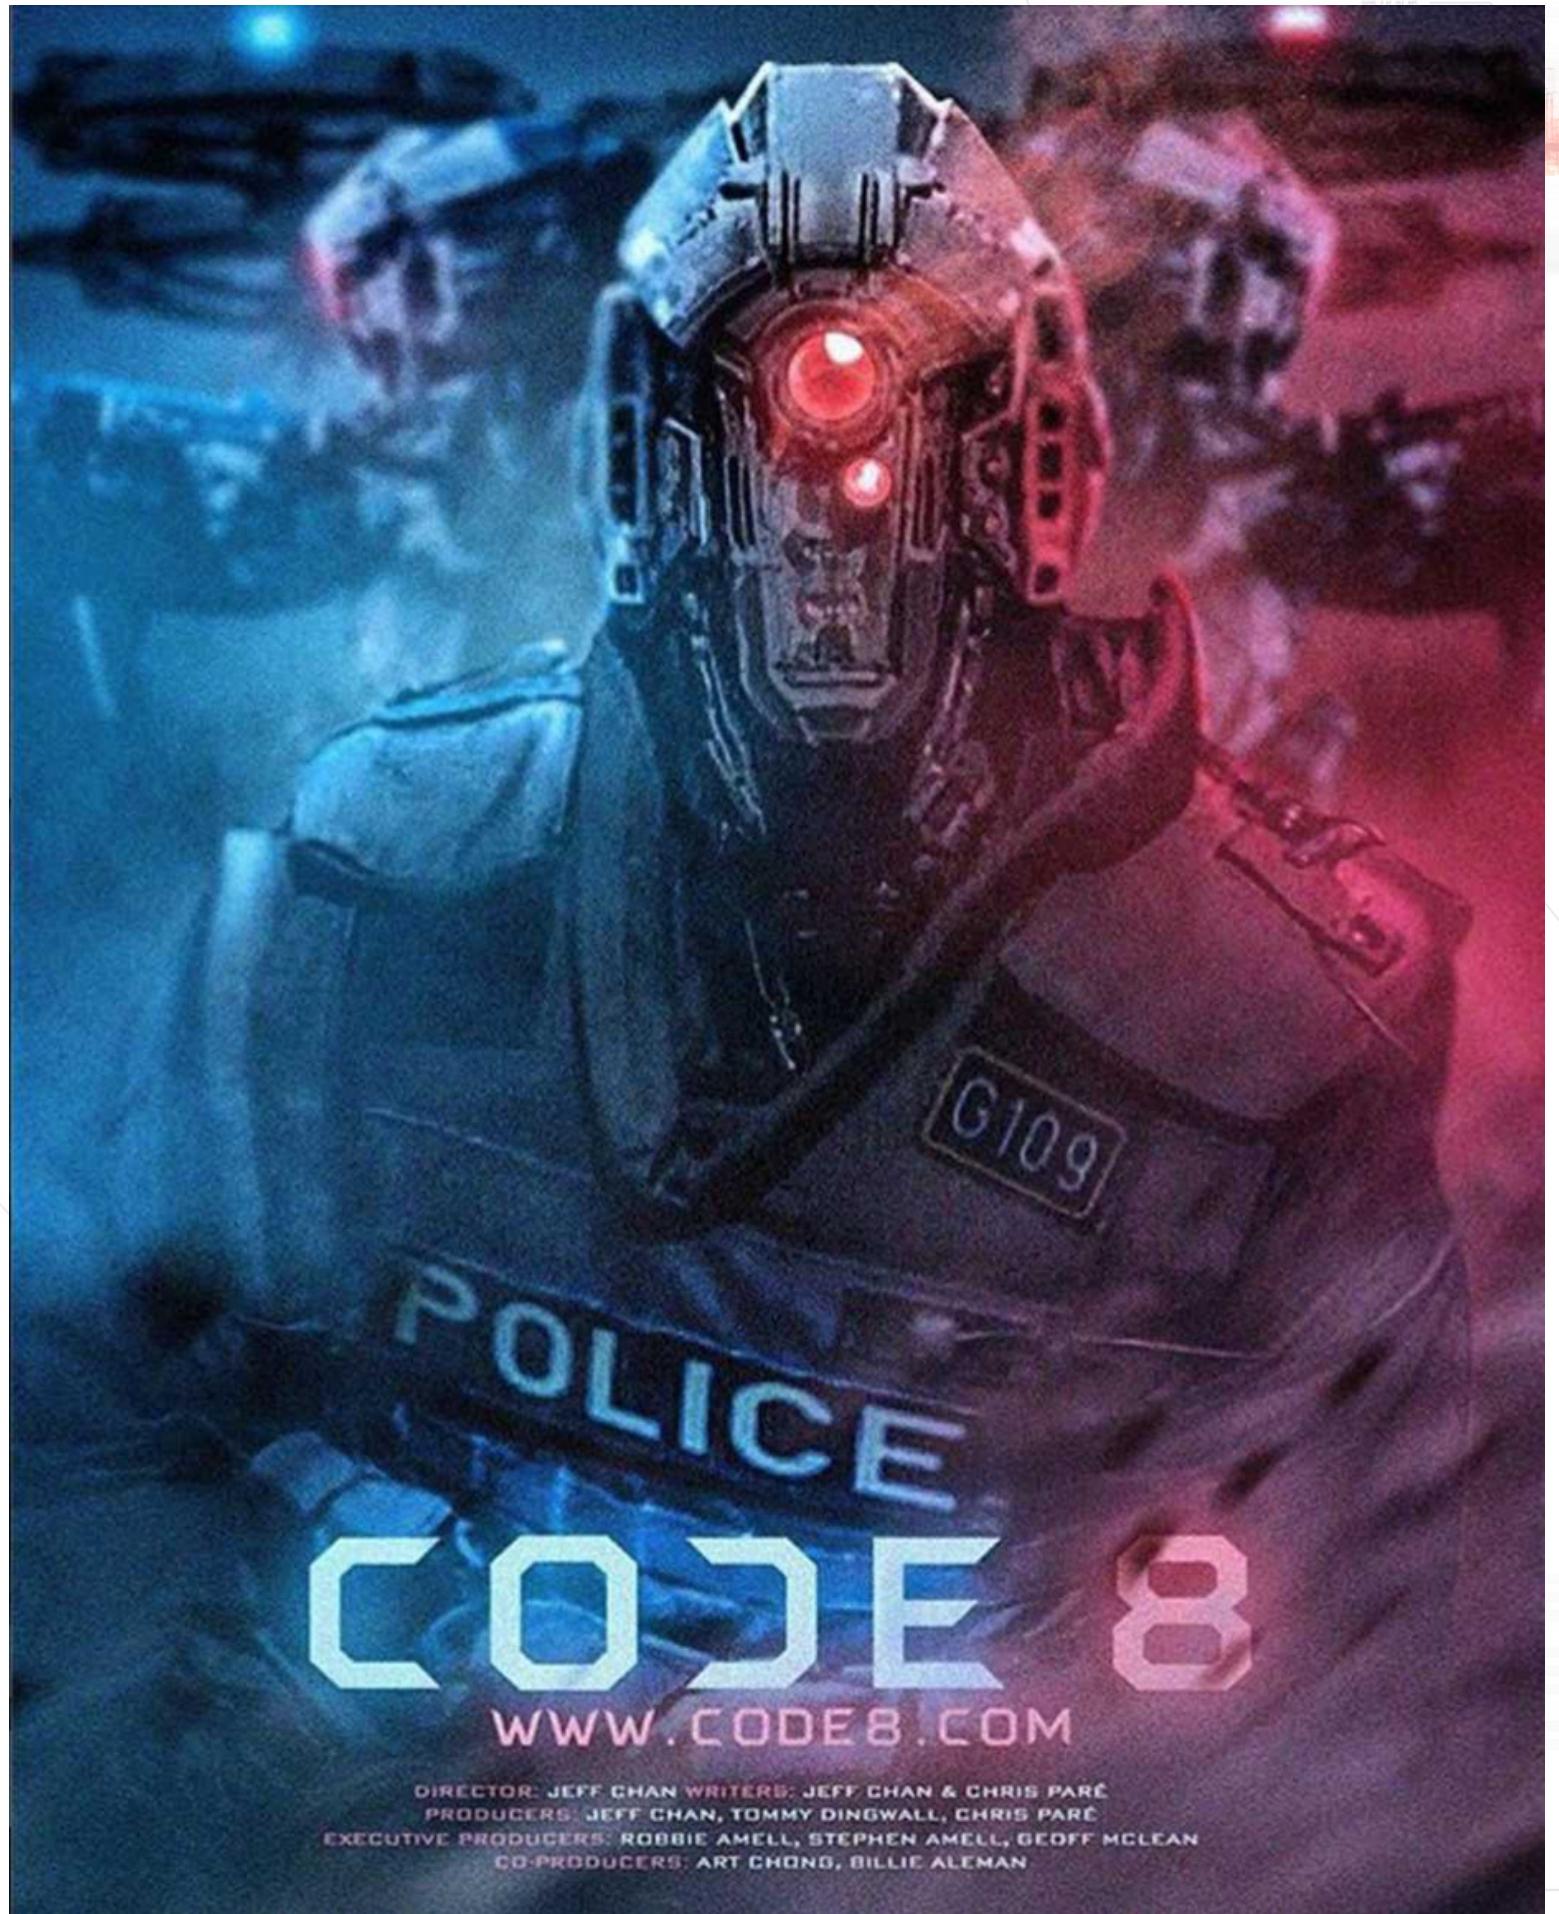

**How much does
media effect the
creation of AI?**

Think of it as your own virtual barista, always ready to serve your favourite brew. Adaptive Brewing: Some coffee machines are now equipped with AI that can adjust the brewing process to match your chosen beans, grind size, and desired strength. Oct 24, 2023

Can you think of an example of a book or film that critiques the use of mass media. Post to Padlet with a link if possible

**What are some
'gateway' media/text
images that standout to
you?**

Is media a gateway to imaging realistic and far fetched uses of AI?
